

# Make better buy-side decisions, faster

Datasite  
for Buy-Side M&A

Tired of messy, overly-manual sell-side reviews? Luckily, there's a better way. Find out how top buyers are creating centralized, repeatable processes from the comfort of their own data room.

10,000+  
transactions annually

390,000+  
buy-side reviewers

24/7/365  
in-house support

GDPR/CCPA  
compliant

Data gathered by Datasite Insights™ as of Dec 31st 2020

## One Place For:

- One-on-one acquisitions
- Auction processes
- Roll-ups
- Partnerships, collaborations, & joint ventures
- Strategic repository

■ **Take charge** | Skip hours of checklist mapping by having the seller upload documents directly in your own VDR index. Or connect directly to the seller's Datasite data room. New feature permissions ensure sellers see only what you want them to see.

■ **Lean on buy-side expertise** | Buyers need support too. Our specialist team assists you with everything from set-up, to training, to help with day-to-day tasks. Rely on 24/7/365 service via online chat, email, or phone – with fluency in 20 languages.

■ **Embed your trackers** | Simplify your life by consolidating your checklists in the data room. Link directly to underlying documents. Know where workstream progress stands instantly. Control access down to the row-level.

■ **Collaborate in the data room** | Stop chasing your workstreams around. Easily create due diligence findings and comments off underlying documents with our integrated tools. See new documents and @Mentions surface on the Dashboard. Fill in knowledge transfer gaps and preserve one source of truth.

■ **Assess progress instantly** | Don't ever be in the dark again. Use our Dashboard to see where you stand with Findings and Trackers in real-time by status and priority. Sharpen oversight with analytics on review status. Customize reports and set on automatic delivery to your inbox.

■ **Save time** | Stop the hunting and clicking. Email documents directly into your project room. Lean on AI-enabled auto-categorization, document previews, and in-app document translation to classify information quickly. Miss nothing with OCR search down to the character level.
